

Vision 2031

Digital Revolution in the era of Artificial Intelligence

Anoop P Ambika 15 FEB 2026

Infrastructure

100-acre traditional IT park will transition from being a human-centric housing facility to a compute-centric intelligence hub

BEFORE: HUMAN-CENTRIC IT CAMPUS

AFTER: COMPUTE-CENTRIC INTELLIGENCE HUB

Infrastructure

- **Compute: The Shift to Accelerated Silicon and Extreme Density**
- **Cooling: The End of Air-Only Facility**
- **Power Generation: Gigawatt Campuses and Nuclear Energy**
- **Networking and Storage: Feeding the Beast**
- **Deployment Architecture: The Core vs. The Edge**

Skilling

- Shift from "Job Titles" to "Skill Graphs"
- Prioritize "Durable" Human Skills
- Embed Learning into the Flow of Work
- Transdisciplinary Education
- Tinkering at Schools

Open Source Movements

- Sovereign and HyperLocal AI Movement
- Open Data Commons Initiative
- Civic AI & Public Good Cooperatives
- The "White-Hat" AI Auditing & Trust Movement
- Decentralized & Peer-to-Peer Compute Networks

Space Technologies

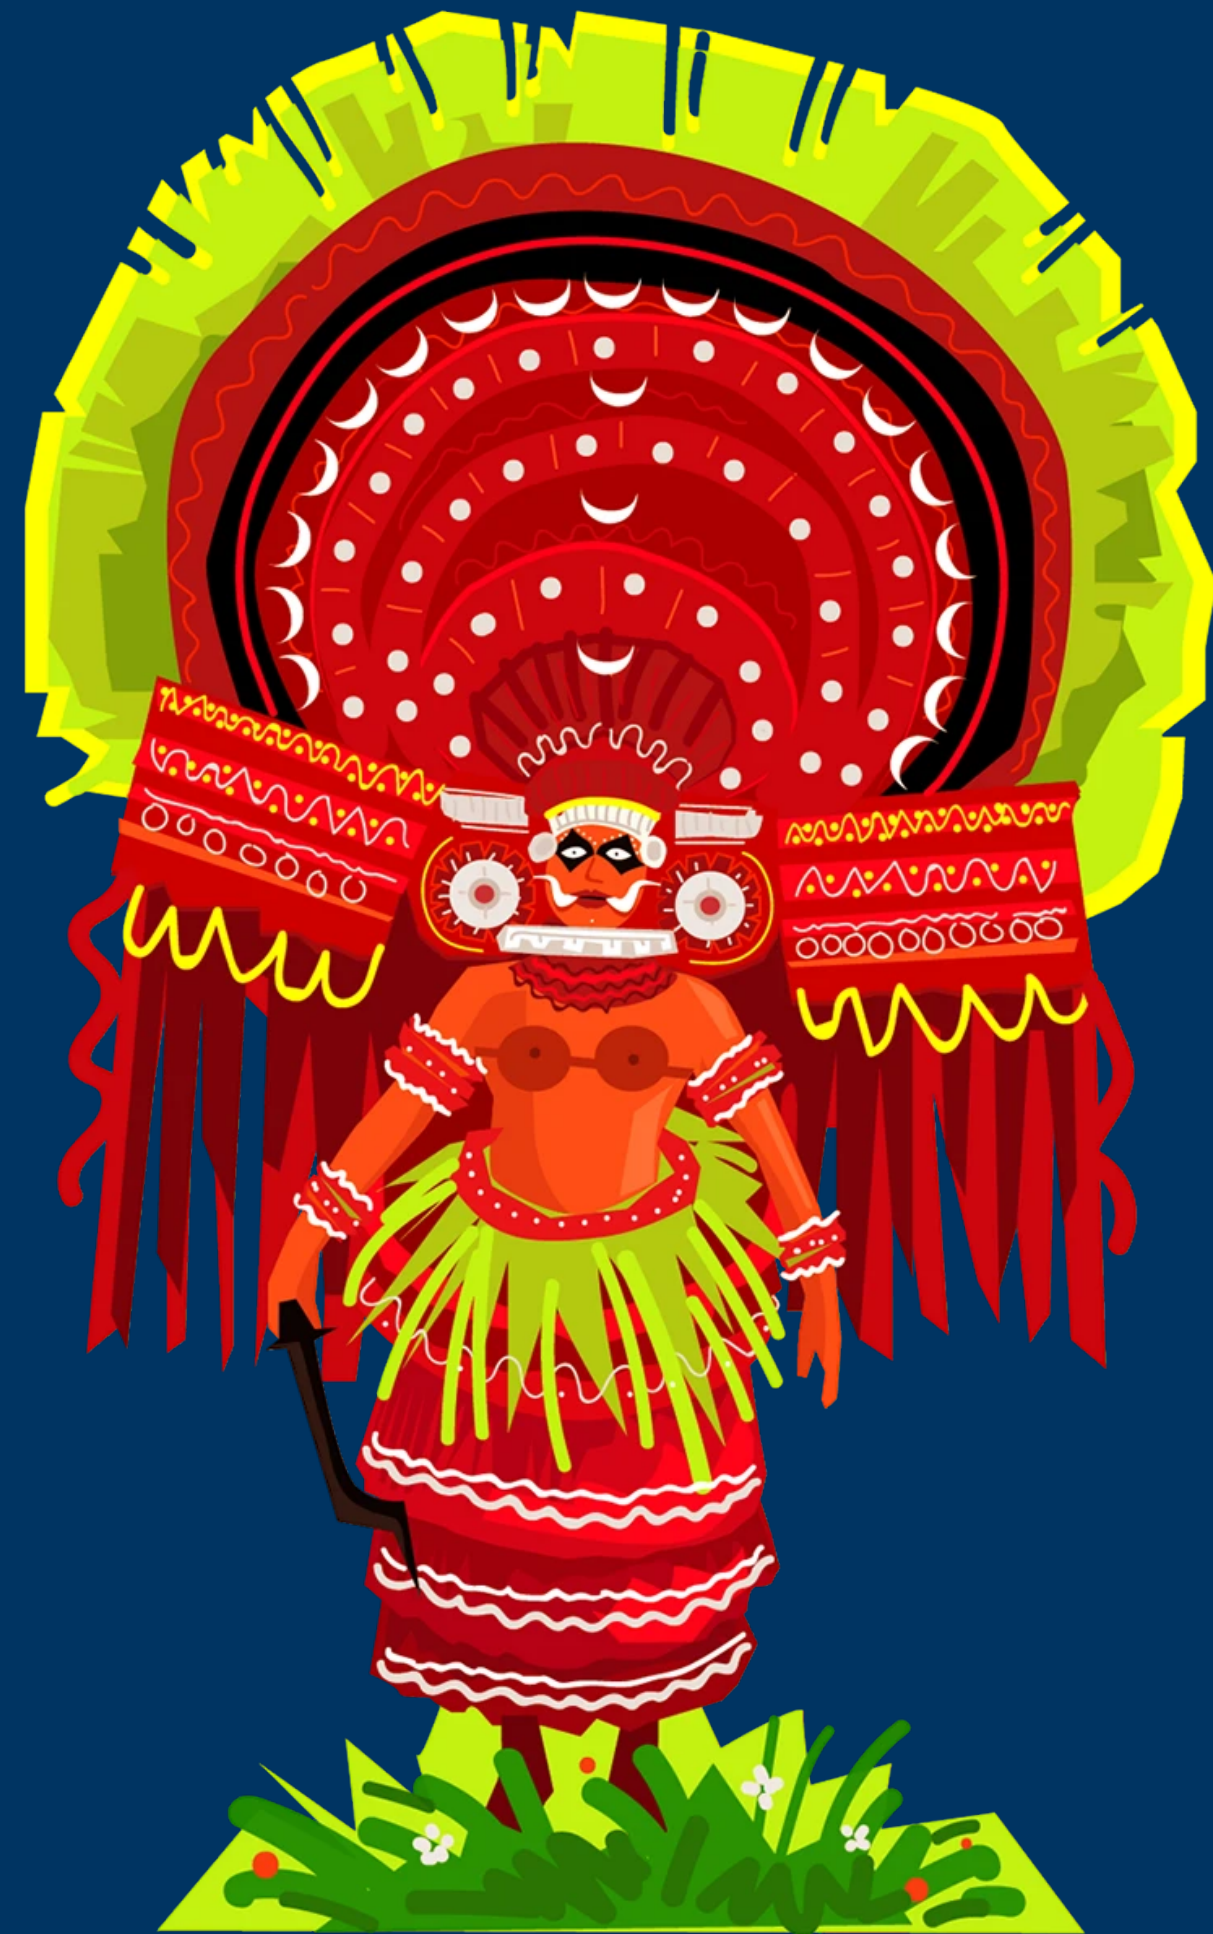

- **Satellite Data Analytics for Climate & Disaster Resilience**
- **Autonomous Navigation and Space Robotics**
- **Smart Aerospace Manufacturing (Industry 4.0)**
- **Edge AI for On-Orbit Computing**
- **Downstream "Space-as-a-Service" Startup Ecosystem**

AVGC XR

- **GenAI-Powered Content & Local IP Development**
- **Upgrading the Talent Pipeline with AI-Assisted Tools**
- **Democratizing High-Performance AI Compute Infrastructure**
- **AI-Enhanced XR for Enterprises**
- **Cultivating AI-Middleware Startups**

Creative Economy

- Cultivate "AI Bilingual" Creative Talent
- Proactively Safeguard and Monetize Local Intellectual Property (IP)
- Shift from SEO to Generative Engine Optimization (GEO)
- Build Domain-Specific and Culturally Nuanced Models
- Leverage "Creative Intelligence" while Selling Human Authenticity

Marketing

- Brand Kerala as the Global Capital of "Ethical Tech"
- Shift from Traditional Roadshows to Predictive B2B Targeting
- Sell the "AI City" with Generative Digital Twins
- Hyper-Personalize Tourism Marketing to Niche Global Trends
- Scale Multilingual Storytelling for Talent Acquisition

E-Governance

- **Conversational e-Governance via Multilingual AI**
- **"Smart Officers" and Automated Bureaucracy**
- **Predictive Disaster Management & Automated Relief**
- **Proactive Welfare Targeting and Anomaly Detection**
- **Simulated Urban and Panchayat Planning (Local Digital Twins)**
